

Product Data Sheet

Even Better

Acoustical Coating

Product Description

The Even Better Acoustical Coating is a specialty coating designed for all types of acoustical ceilings. It can be used both on new installations to create a wide range of colors and on old ceilings for restoration purposes.

The coating does not decrease the acoustical absorption. Up to 4 layers of coating can be applied before any decrease in sound absorption can be detected.

Installation

Mix thoroughly before use.
Use spray gun with 5/11 – 5/15 nozzle, pressure >100 bar (>1500 Psi). Spray a thin layer, let dry. Spray additional layers if needed. Estimated drying time 20-30 minutes. The product will be completely cured after 24-48 hours.

Properties

Water based. Non Toxic.

Content: Calcium Carbonate, Titanium Dioxide, Aluminum silicate.

Packaging: 19 liter (5 U.S. gallons) pails.

Coverage: If the products is applied in 2 layers, 19 liters (5 U.S. gallons) will cover approximately 80-100m² (approx. 800-1000 sq.ft.)

Storage

Store in enclosed dry environment. Avoid freezing. Keep away from direct sunlight.
