

Product Data Sheet

Even Better

Acoustical Coating

Product Description

The Even Better Acoustical Coating is a specialty coating designed for all types of acoustical ceilings. It can be used both on new installations to create a wide range of colors and on old ceilings for restoration purposes.

When applied correctly, the coating does not decrease the acoustical absorption.

Installation

Mix thoroughly before use.
Estimated drying time 20-30 minutes. The product will be completely cured after 24 hours.
DO NOT INSTALL BEFORE CORRECT INSTALLATION INSTRUCTIONS FROM FELLERT.

Properties

Water based. Non Toxic.

Content: Calcium Carbonate, Titanium Dioxide, Aluminum silicate.

Packaging: 18 liter (4,5 U.S. gallons) per pail.

Coverage: 80-120m² (approx. 800-1200 sq.ft.)
Depending on rough or smooth surface and application method.

In general, the air-mix spray gun needs less material than the high-pressure spray gun to reach the same level of coverage.

An air-mix spray gun (like the Kremlin 30:25) is recommended.

Storage

Store in enclosed dry environment. Avoid freezing. Keep away from direct sunlight.
