

Product Data Sheet

Even Better

C-Channel

Product Description

The Even Better C-Channel is used to finish the Even Better Acoustical Board and the Even Better Plaster to an adjacent surface. The product can be cut to flex and fit around gradual shapes and angles.

Available in two sizes:
for the 25 mm/1" or the 39mm/1.5" acoustical board.

The Even Better C-channel is not designed to be a self-finished exposed edge detail, e.g. for clouds or exposed return angles.

Installation

As described in the FELLERT Even Better Installation Guide. Available on www.fellert.com.

Properties

High-impact Polystyrene

Packaging: 48 pcs of 3 m (10 ft) length

Storage

Store in enclosed dry environment. Keep away from direct sunlight.
